

## Q1 2026 - Sunday 25th January 2026

**Attendees:** Miano Njoka, Muchemi Wandimi, Jacob Sitati, Duncan Kiara.

**Location:** Online Conference Call

### Agenda

- Founders Day service
- Regular updates about the fund
- Financial setup
- AHSEF next big idea

### Notes

- Meeting called to order at 7:15pm EAT.
- Founders Day service:
  - Refine AHSEF messaging for the day. Updates to include:
    - Introduction to the fund.
    - Achievements.
    - Teaser of AHSEF's next big idea.
  - Muchemi will communicate this to the OBC.
  - We aim to promote greater awareness of the fund among alumni and friends of AHS.
- Regular updates about the fund:
  - There is a need to create a regular publication of the fund status.
  - Jacob sent an end-of-year newsletter in Q4 2025, this will continue.
  - Duncan suggested that we accompany that with a one-pager that is easily forwardable.
  - Jacob will create a template for this update.
- Financial setup:
  - We now have a bank account and a Stripe donations page linked to it that facilitates tracking individual contributions and to routing funds to the appropriate Vanguard fund.
- AHSEF next big idea:
  - Answers the question: what is the moonshot idea that will bring the next 10x in the fund both financially and in impact?
  - Muchemi shared his thoughts about starting with and funding an enrichment program that overlays the typical AHS experience and is accessible to all students.
  - To get this off the ground, we want to do the following:
    - Write the vision and the roadmap (multi-decade challenge).
    - Pick a vertical to start with (2-3 years).

- Partnerships with other institutions to help expand (e.g. MIT AITI that brought computer programming to AHS).
